Trans Health Australia is a community run advocacy group & peer support network that was founded by members of the community in April 2012. The focus of this action group is to address health and wellbeing issues affecting Australian trans* (transsexual or transgender) intersex & gender diverse communities. Our aim is to raise visibility, educate and raise awareness of the issues affecting members of our community, and to provide peer support to individual members or other groups who support our community.

Organisation Intersex International Australia Limited (OII Australia) is a national body by and for intersex people. We promote the human rights, self-determination and bodily autonomy of intersex people in Australia, to help us all achieve our maximum potential. We develop policy, and provide peer support, information and education. Our goals are to help create a society where sex differences are not stigmatised, and where our rights as people are recognised.

The Androgen Insensitivity Syndrome (AIS) Support Group Australia Inc. (A0041398U) is a peer support, information and advocacy group for people affected by AIS and/or related intersex conditions, and their families.

We support members (both in Australia and overseas) that have any grade of Androgen Insensitivity Syndrome, and support any issues relevant to living with AIS. These issues include infertility, disclosure, hormone therapy, gender identity, surgical intervention of children with intersex conditions, sexual intimacy, etc.

We also provide support to those with related intersex conditions like Partial and Complete / Gonadal Dysgenesis, MRKH (also known as Vaginal Agenesis), 5a-Reductase Deficiency, 3b-Hydroxysteroid Dehydrogenase Deficiency, 17-Ketosteroid Reductase Deficiency and 17b-Hydroxysteroid Deficiency. (The previous name for AIS was Testicular Feminisation Syndrome).

We acknowledge that people with intersex conditions (including AIS) range from female to male and anywhere in between.
