Twenty10 incorporating GLCS NSW is a community-based, non-profit, state-wide organisation, working with and supporting people of diverse genders, sexes and sexualities, their families and communities. We aim to be a beacon of strength and acceptance by supporting individuals to build resilience and achieve their potential and we strive to be known as a place of excellence in leadership, education and support services for young people and adults wherever they are.

The Gender Centre Inc. is both an N.G.O. and a Non-Government Organisation funded in part by the N.S.W. Department of Human Services, Community Services under the Supported Accommodation Assistance program (S.A.A.P.), and Sydney South West Area Health Service, and is an Incorporated Association. We offer a wide range of services to people with gender issues, their partners, family members and friends in New South Wales. We are an accommodation and counselling service for our gender questioning clients from the age of 16 and up, we also act as an education, support, training and referral resource centre to other organisations and service providers.

have created this group for people that identify themselves as transgendered. Being transgendered does not have to be a lonely road, there are many others out there like us this is a nice way we can get together over a coffee and cake and chat about whatever you wish, fashion, coming out, hormones the list is endless. It doesn't matter what stage you're up to in your transition or if you're mtf or ftm this group is open to you. This is not a support group so don't be worried we are not going to asking about everyone issues we're here to have fun.
